AMAZON

Seattle, WA

Senior Program Manager – Cross Border Delivery Experience

May 2026-Present

- Defined requirements to integrate missing historical Cross-Border demand signals into SCOT forecasting systems with science and SDE teams; projected to reduce WAPE 60%→43% and increase Local In-Stock 32%→54%.

Senior Program Manager Intern – Brand Abuse Prevention and Reporting Service

Jun 2025-Sep 2025

- Analyzed user journeys across 3 IP-violation reporting flows serving 700K+ brands and 1.5M reports/year; mapped 23 paths, synthesized 35+ customer interviews and 12 usability studies, and delivered a roadmap aligned across 15+ stakeholders.
- Defined and measured reporting KPIs, including time-to-submit, abandonment, hurdle rate, first-attempt resolution rate, help-icon click rate, and incorrect-submission rate, to assess flow quality and resolution effectiveness.
- Investigated time-to-report anomalies that uncovered automated competitor bot abuse across Public Notice Forum; recommended verification controls to the Fake and Abusive Notice Submitter Prevention team, with \$35M in projected revenue-loss prevention.
- Built a GenAI reporting copilot to route users, prefill data, persist patent/trademark inputs, and collect evidence; defined LLM evaluation and human-in-the-loop guardrails, projecting 23% lower time-to-submit and 4.66M minutes saved annually.

YUANFUDAO (ODA CLASS) (AI-driven K-12 math & science live learning app, valued at \$15.5B)

Bengaluru, IN

Senior Product Manager – Founding Team

2020-24

- Designed India market-entry strategy with the CEO and global investors, converting free-trial users into paid courses through social-media-led campaigns; scaled to 6M+ users and 55K+ paid customers, generating INR 1.1B (~\$13.2M) over three years.
- Optimized the trial-to-paid funnel through campaign iteration, sales scripting, onboarding, and Fast Track, a compressed-curriculum offering for late-enrollment leads; generated INR 240M and expanded the paid base by 68%.
- Defined feature strategy for a gradient-boosting lead-scoring ML model (partnered with data science) using trial engagement data across 12K weekly students to prioritize outreach; lifted conversion 6.8%→7.6% against a 6.5% breakeven target.
- Led product definition for gamification features including ODA Coins, leaderboards, and badges, translating engagement goals into PRD requirements, tracking events, and engineering roadmap; increased course completion by 13% and retention by 6.7%.

T.I.M.E (India's leading test-prep provider with 192 offices across India)

Bengaluru, IN

Product Manager – New Product Introductions

2018-20

- Conceived and scaled a JEE video-learning platform as end-to-end owner, defining product strategy, content pipeline, and LMS delivery architecture; drove INR 70 M (~\$1M) in revenue through data-informed iteration.

Program Manager – New Product Introductions

2017-18

- Drove strategy and execution for B2B JEE learning product as founding PM, from GTM design through partner scaling and academic delivery model; expanded partner network from 1 to 17 and generated INR 240M (~\$3.4M) in revenue over 3 years.

Product Analyst

2016-17

- Owned end-to-end redesign of AIMCAT's post-test analytics platform for 70K+ CAT aspirants, translating customer and competitor insights into technical requirements for scoring, accuracy, time-management, and question-selection diagnostics.
- Led cross-functional delivery across engineering, data, and academic teams from requirements through launch, increasing analytics CSAT by 22% and free-to-paid conversion by 17%.

EDUCATION

FOSTER SCHOOL OF BUSINESS, UNIVERSITY OF WASHINGTON

Seattle, WA

Master of Business Administration, MBA (STEM)- AI Specialization

Jun 2024-Jun 2026

- Dean's Merit Scholar | VP of AI and Data Analytics Club - organized 5 AI skills workshops and 10+ expert sessions

NATIONAL INSTITUTE OF TECHNOLOGY (NIT) ROURKELA

Rourkela, IN

Bachelor of Engineering (Mechanical Engineering)

Jun 2012-Jun 2016

- Govt. of India INSPIRE Scholar (Top 1%, 1.2M exam takers) | Rank 3, Futures First Trading Competition (30K+ participants)

SKILLS AND TOOLS

AI: Agentic workflows, prompt design, LLM evals & guardrails, RAG, fine-tuning, rapid prototyping, Claude Code, n8n, MCP

Product & Growth: A/B testing, funnel analysis, pricing & monetization, GTM strategy, user research, roadmap prioritization

Technical: Python, SQL, R, API integration, Tableau/Power BI, Excel, Jira, Figma, Distributed Systems

ML: Regression, classification, clustering, Random Forests, CART, model evaluation (precision/recall, ROC-AUC)
